Instructional Method & Schedule Type Guide

These are the Schedule Types used at Snow along with their **corresponding** Instructional Method. These codes are linked with the course in Banner based on what is indicated in the syllabus. If the option you want is not available for a course, contact the scheduling office and we can look into adding it.

Sch. Type	Description	Inst. Method	Description	Notes:
CBE	Competency Based Education	I	Online	**CBE** should always be a <u>completely online course</u>, with no expectation that a student will need to come onto campus for course work or to demonstrate skill.
HYB	Hybrid (Online & Face-to-Face)	Y	Hybrid (online & face-to-face)	Sections with HYB schedule type **must** have 2 meeting places. The first one will be a <u>classroom </u>with meeting days and times. The second will be a building of ONLINE, with the classroom as HYBRID. If a course is mostly CBE, but students will need to come on campus at any time for the course, then it should be built as HYBRID.
INS	Internship	NT	Non-traditional	
INT	Internet	I	Online or	Use "I" for traditional online.
INT	Internet	V	Virtual/Online Synchronous	Use "V" when students are expected to participate online at specific days/times.
INV	Independent Study	NT	Non-traditional or	
INV	Independent Study	I	Online	
IVC	Interactive Video Conference	R	Interactive Video Conference	
LAB	Laboratory	TR	Traditional	
LEC	Lecture	TR	Traditional	
LEL	Lecture/Laboratory	TR	Traditional
