Dr. Brendan Quinn is an epidemiologist based within the Burnet Institute's Centre for Population Health in Melbourne, Australia. He is a public health specialist and continues to augment his knowledge and skills in the area of licit and illicit drug trends, justice health issues and infectious diseases in Australia and internationally via work on multidisciplinary research projects. Dr Quinn is an emerging Australian authority on methamphetamine-related issues and continues to research and provide expert commentary on this area.

To reserve a seat for February 3 please contact **Amy Noblett (435-283-7300)**.
Space is limited; please RSVP by January 30, 2017.

This presentation is conducted through the Fulbright Scholar Program's Outreach Lecturing Fund (OLF). OLF enables Visiting Scholars to share their research interests, speak about their home country, and exchange ideas with U.S. students, faculty, and community organizations. Through these lectures, universities forge relationships with the Fulbright Scholar Program, Visiting Scholars, and the Visiting Scholar's home and host institutions.
