

AUTO 1500

Division: Career and Technical Education

Department: Automotive Technology

Course: AUTO 1500

Title: Automotive Brakes

Catalog Description:

This course covers principles, repair, and adjustment of the automotive brake system and includes hydraulic theory, diagnosis, and service of brake systems. Students study drums, disks, power units, and Automatic Braking System (ABS) brakes.

General Education Requirements: N/A

Semesters Offered: TBA

Credit/Time Requirement: Credit: 5; Lecture: 2; Lab: 9

Clock/Hour Requirements: 165

Offered for Non-Credit: No

Prerequisites: None

Corequisites: None

Justification:

This course is required for Automotive Service Excellence (A.S.E.) certification. It is approved by the program advisory committee.

Student Learning Outcomes:

Upon successful completion of this course, students will be able to safely perform the tasks listed in the current edition of *A.S.E. Certification For Automobile Training Programs*.

Content:

Upon completion of this course, students will understand and be able to explain:

- safety
- history and evolution of automotive brake systems
- brake system fundamentals
- master cylinders and brake fluids
- hydraulic theory, lines, valves, and switches
- power brake systems

- disc and drum brake systems
- parking brake systems
- antilock brake theory and systems
- relationship of related systems: tires, wheels, bearings, suspension, etc.

General Education Outcomes:

5) Apply a cultural and historical awareness to a variety of phenomena.

Students will develop an understanding of the history of automotive brake systems and its relationship to past, current, and future developments in the automotive field.

Key Performance Indicators:

In class:

- Students shall be required to complete chapter assignments (60%) and pass a final test (40%), In addition, students are required to perform shop tasks (P1 tasks 100%, P2 tasks 90%, and P3 tasks 80% to pass course) as outlined in the current edition of *A.S.E. Certification For Automobile Training Programs*.

Following class:

- Course evaluation will be demonstrated by the following methods:
 - student feedback as per A.S.E. requirements
 - students passing A.S.E. tests
 - students transferring to other post secondary institutions
 - student performance in subsequent courses.

Representative Text and/or Supplies:

- Eichhorn, Lane and Clifton Owen, *Automotive Brake Systems*, current edition, Thomson/Delmar Learning.

Optimum Class Size: 10

Maximum Class Size: 18

Signatures:

I hereby submit this course syllabus:

Brent Reese, BS, Associate Professor

I hereby find this course consistent with the goals and resources of the Automotive Technology Department:

Brent Reese, BS, Associate Professor, Chair

I hereby find this course consistent with the goals and resources of the Career and Technical Education Division:

Michael P. Medley, MBA, Assistant Professor, Dean

I have discussed the need for library resources related to this class with the person submitting the syllabus:

Lynn Anderson, MLIS, Technical Services Librarian (Main Campus)

Michelle Olsen, MLS, Campus Librarian (Richfield Campus)
