General Education Outcomes:

3) Speak effectively in a variety of contexts.

Students communicate with clients regarding desired outcomes and expectations. Effective speaking and listening skills are critical for success in the cosmetology profession.

6) Apply computational skills to a variety of contexts.

Students will be able to precisely measure and mix solutions in the chemical application of hair products.

7) Apply scientific reasoning to a variety of contexts.

Students will learn the "Law of Color" as it applies to hair coloring and the effect of pH levels on hair condition.

8) Apply ethical reasoning to a variety of contexts.

Students will learn to communicate with clients in an ethical fashion when arriving at style/coloring decisions.

9) Respond with informed sensitivity to an artistic work or experience.

Students will learn to appreciate and critique styles, cuts, coloring, and textures based on current trends and appropriate application.

Key Performance Indicators:

In class:

- Students are graded on practical application of theoretical skills as these are practiced on mannequins or clients.
- Successful completion of competencies is verified by instructor.
- Courses 1010, 1012, 1013 are combined series. Students will be graded based on their performance in all three classes. Written tests on major subject areas make up 20% - 30% of grade, and practical grades in all subject areas consist of 70% - 80% of student grades.

Following class:

- After completion of the course, competency will be measured by success in subsequent courses and by passing the state license exam.
