

COSB 1311

Division: Career and Technical Education

Department: Cosmetology/Barbering

Course: COSB 1311

Title: Cosmetology/Barbering Practicum

Catalog Description:

Lab instruction and practice are an integral part of this program. This course covers practical experience with shampooing, scalp treatments, manicuring, haircutting, hairstyling, permanent waving, facials, massaging, trichology, care and styling of wigs and wiglets, finger waving, haircoloring, bleaching, tweezing of unwanted hair, waxing brows, and applying facial makeup.

General Education Requirements: N/A

Semesters Offered: TBA

Credit/Time Requirement: Credit: 2; Lecture: 0; Lab: 5

Clock/Hour Requirements: 75

Offered for Non-Credit: No

Prerequisites: COSB 1010 and either COSB 1012 or COSB 1013

Corequisites: None

Justification:

This course is required by the State Cosmetology Board to prepare students in cosmetology/barbering theory and practices.

Student Learning Outcomes:

Upon successful completion of this course, students will:

- demonstrate proper procedure and sanitary precautions for manicure and pedicure
- recognize diseases and disorders of nails
- describe the manipulations used in massage and their benefits
- demonstrate the procedure and manipulative skills used in facials
- describe the beneficial effects of a facial
- describe correct makeup application techniques
- demonstrate procedures for corrective makeup
- describe the structure, composition, and functions of the skin (histology)
- list the two general classifications of unwanted hair removal
- identify acceptable techniques involved in the methods of permanent hair removal
- describe the many tissues, organs, and systems of the human body

- describe the structure and functions of the human body
- demonstrate all applications for nail enhancements
- recognize skin, hair, and nail diseases and disorders by their symptoms, both objective and subjective
- use the various esthetic procedures
- demonstrate haircutting for men and women
- know how to care for and maintain artificial hair pieces
- know all the safety measures for all techniques used in our industry as it relates to nails, facials, coloring, cutting, and chemical relaxing
- know the proper color selection for a regular application and corrective color
- know procedures of all artificial nail enhancements
- know first aid for minor cuts, blood spills, burns, customer injuries, and situations that require Emergency Medical Services notification
- use various esthetic manipulative procedures to improve and correct skin conditions.

Content:

Course objectives will be accomplished by providing students with learning experiences in the following subject areas:

- demonstrating advanced manicuring and pedicuring techniques
- application of acrylic nails
- performing the different types of facials
- demonstrating proper application of makeup to balance all facial features
- recognizing the different skin diseases and disorders
- demonstrating the different techniques for temporary hair removal
- explaining three types of permanent hair removal
- recognizing the different parts of the systems in the human body
- proper application of nail enhancements
- using electric currents and hand manipulations to perform massage techniques in preventative and corrective facials
- recognizing skin, hair, and nail disorders
- using various esthetic procedures
- barber and style cutting
- fitting and caring of artificial hair pieces
- the safety measures for all techniques in nails, facials, coloring, cutting, and chemical relaxing
- color selection and procedures for corrective haircoloring
- use of first aid techniques for cuts, blood spills, burns, and other emergencies.

General Education Outcomes:

3) Speak effectively in a variety of contexts.

Students communicate with clients regarding desired outcomes and expectations. Effective speaking and listening skills are critical for success in the cosmetology profession.

6) Apply computational skills to a variety of contexts.

Students will be able to precisely measure and mix solutions in the chemical application of hair products.

7) Apply scientific reasoning to a variety of contexts.

Students will learn the "Law of Color" as it applies to hair coloring and the effect of pH levels on hair condition.

8) Apply ethical reasoning to a variety of contexts.

Students will learn to communicate with clients in an ethical fashion when arriving at style/coloring decisions.

9) Respond with informed sensitivity to an artistic work or experience.

Students will learn to appreciate and critique styles, cuts, coloring, and textures based on current trends and appropriate application.

Key Performance Indicators:

In class:

- Students are tested orally on an ongoing basis. Written tests are given on major subject areas.
- Courses 1310, 1311 are combined series. Students will be graded based on their performance in all three classes. Written tests on major subject areas make up 20% - 30% of grade, and practical grades in all subject areas consist of 70% - 80% of student grades.

Following class:

- After completion of the course, competency will be measured by success in subsequent courses and by passing the state license exam.

Representative Text and/or Supplies:

- *Milady's Standard Textbook of Cosmetology*, current edition, Milady Publishing Company, Albany, New York.
- Supplemental materials may be required

Optimum Class Size: 0

Maximum Class Size: 25

Signatures:

I hereby submit this course syllabus:

Chad Price, A.A.S., Instructor

I hereby find this course consistent with the goals and resources of the Cosmetology/Barbering Department:

Teri Mason, AAS, Instructor, Chair

I hereby find this course consistent with the goals and resources of the Career and Technical Education Division:

Michael P. Medley, MBA, Assistant Professor, Dean

I have discussed the need for library resources related to this class with the person submitting the syllabus:

Lynn Anderson, MLIS, Technical Services Librarian (Main Campus)

Michelle Olsen, MLS, Campus Librarian (Richfield Campus)
