

## DMT 1810

**Division:** Career and Technical Education

**Department:** Automotive Technology

**Course:** DMT 1810

**Title:** Commercial Driver License Written Exam Preparation

**Catalog Description:**

This course is designed to prepare a student for the Commercial Driver License written exams. **\*Permission by instructor required.** Additional fee required.

**General Education Requirements:** N/A

**Semesters Offered:** TBA

**Credit/Time Requirement:** Credit: 0; Lecture: 0; Lab: 0

**Clock/Hour Requirements:** 8

**Offered for Non-Credit:** No

**Justification:**

Industry figures average an estimated increase of freight transported by commercial vehicles in excess of 3% per year. This creates an ongoing demand for drivers holding Class "A" Commercial Driver Licenses. Additional employment opportunities exist in other fields such as construction and local delivery. This course prepares a student for the written exams which are the first step of the CDL process and gains the student the CDL "Learner Permit" which is used while gaining the training necessary to pass the final Performance Exams.

**Student Learning Outcomes:**

By the end of the course, students will be able to pass the Commercial Driver License (CDL) written exams with a minimum proficiency of 80%.

**Content:**

The course will contain preparation material for the following CDL written exams:

- general knowledge
  - post-accident procedures, drug and alcohol effects, heavy vehicle backing, service and emergency use of hydraulic and air brake systems, cargo handling, weight distribution, emergency evasive maneuvers, adverse weather driving, vehicle safety inspection, emergency equipment use, drive train application, and intersection management with longer combination vehicles
- combination vehicles
  - fifth wheel assemblies and their use, trailer handling characteristics, air supply line use and potential problems, and proper coupling and uncoupling of trailers
- air brakes
  - characteristics, components, testing, and use of air brake systems
- hazardous materials
  - identification, handling, placarding, documentation, and responsibilities of handling

- hazardous material shipments
- double and triple trailers
  - characteristics, components, and driving techniques for double and triple trailer configurations
- tank trailers
  - characteristics, components, and driving techniques for tank trailers.

**General Education Outcomes:**

**Key Performance Indicators:**

Student evaluation comes at the end of the course by taking the CDL written exams. These exams must be taken at a Utah Division of Motor Vehicle office. Minimum passing score of any test is 80%.

**Representative Text and/or Supplies:**

- Utah Commercial Driver License Handbook
- two versions of practice exams
- supplemental reference material will be supplied

**Optimum Class Size:** 4

**Maximum Class Size:** 8
