

PHAR 1210

Division: Career and Technical Education

Department: Allied Health

Course: PHAR 1210

Title: Pharmacology for Pharmacy Technicians I

Catalog Description:

This course discusses the nature of drugs, drug absorption, and patient variables that affect drug therapy. Drug classification and nomenclature are also discussed.

General Education Requirements: N/A

Semesters Offered: TBA

Credit/Time Requirement: Credit: 4; Lecture: 4; Lab: 0

Clock/Hour Requirements: 60

Offered for Non-Credit: No

Prerequisites: None

Corequisites: None

Justification:

This course provides instruction necessary to prepare students to pass state and national certification exams. This course follows the state board guidelines in content and in required hours of instruction. This course was recommended by the Allied Health advisory committee and approved to be taught by the State Pharmacy Board in August 1997.

Student Learning Outcomes:

Upon successful completion of this course, students should be able to:

- define drugs; identify their sources; and understand how, where, and why they work
- know therapeutic effects, side effects, and administration routes of medications.

Content:

Course objectives will be accomplished by providing students with learning experiences in the following subject areas:

- introduction to pharmacology
- history

- drug usage
- antifungals/antivirals
- decongestants/antihistamines/antitussives/expectorants
- anesthetics, analgesics, and narcotics
- antidepressants, antipsychotics, antianxiety agents
- anticonvulsants and drugs to treat other central nervous system (CNS) disorders
- over the counter medications, non-prescription products including, but not limited to, cough and cold, nutritional, analgesics, allergy, diabetic testing supplies, first aid, ophthalmic, family planning, foot, feminine hygiene, gastrointestinal preparations, and pharmacy care over the counter drugs.

General Education Outcomes:

1) Read effectively, constructively, and critically.

Students acquire key information from the written text. Exercises in an accompanying workbook will assess student understanding of the concepts covered in the written materials.

4) Retrieve, evaluate, interpret, and deliver information through a variety of traditional and electronic media.

Students acquire a basic understanding of medications, drug therapy, drug interactions, and therapeutics. Exercises in an accompanying workbook and prescription data entry will assess the student understanding of the concepts covered in the materials.

Key Performance Indicators:

In class:

- Students will be evaluated on individual performance on all exams, quizzes, and assignments.
- Final grade will be based on: 80% exams, 10% quizzes, and 10% assignments. Competency will also be demonstrated in subsequent courses.

Following class:

- Students will successfully pass the assignments, final exam, and state and national certification exams.

Representative Text and/or Supplies:

- *Pharmacology for Technicians*, current edition, Ballington and Laughlin.
- *Pharmacology for Technicians Workbook*, current edition, Ballington and Laughlin.

Optimum Class Size: 10

Maximum Class Size: 15

Signatures:

I hereby submit this course syllabus:

Amber Epling, MSN, Associate Professor

I hereby find this course consistent with the goals and resources of the Allied Health Department:

Amber Epling, MSN, Associate Professor, Chair

I hereby find this course consistent with the goals and resources of the Career and Technical Education Division:

Michael P. Medley, MBA, Assistant Professor, Dean

I have discussed the need for library resources related to this class with the person submitting the syllabus:

Lynn Anderson, MLIS, Technical Services Librarian (Main Campus)

Michelle Olsen, MLS, Campus Librarian (Richfield Campus)
