**IN AMERICA**

**BEST** OF  
THE **BEST**  
IN EDUCATION

Snow College may offer the lowest tuition rate in the state, but that doesn't mean we skimp on quality. Because of our innovative general education program, our graduates are well-prepared to either enter the job market or transfer to their chosen university as full juniors, ready to tackle upper-division classes.

# EPHRAIM • RICHFIELD • ONLINE

Built with you in mind, the general education program at Snow College is designed for lifelong learning.

## FOUNDATIONS

As part of our unique Foundations classes, you'll explore interesting topics from the perspective of three different academic fields. You'll learn how each subject connects, helping you answer the age-old question, "Why do I need to take this class?"

## TUTORING

Do quadratic equations make your head hurt? Does the thought of writing a three-page paper give you cold sweats? We've got you covered! Between our in-person tutoring labs and 24/7 access to help via [tutor.com](https://www.tutor.com), you never have to worry about being stuck on homework again.

## UNDERGRADUATE OPPORTUNITIES

At Snow College, you don't have to wait until your senior year for the big opportunities. Participate in scientific research, publish your poetry, attend a business travel seminar, act in a play—all things you can do as a first-year student at Snow.

## STACKABLE CREDENTIALS

Some programs offer micro-credentials or certificates demonstrating proficiency in specific areas. These for-credit credentials can be used toward your degree and are helpful tools when transferring or seeking employment.
