

Emotional Support Animal Application

Student Name: _____ Badger ID Number: _____

Home Address: _____

_____ (____) _____

City State Zip Code Cell Phone

Email address

By applying for Emotional Support Animal accommodation here at Snow College you are agreeing to the Procedures set forth by Snow College regarding Emotional Support Animals. Below is a summary of these procedures. For the entire listing of procedures please see Snow College Website.

- *The animal must have all vaccinations, licensing and training prior to acceptance. An ESA may be removed from Snow College facilities including College Housing if the animal is not taken care of, is destructive or threatening, or reasonable rules and regulations are not followed. Owners of ESAs are solely responsible for any damages to persons or property caused by their animal.*
- *An ESA differs from a Service Animal in that an ESA is typically not allowed on College property except in housing. Because of this, while an ESA is approved by the Accessibility Resource Center, the Office of Residence Life must be involved in the process as it has the responsibility to coordinate and oversee ESAs in College housing.*
- *ESAs must also comply with Snow College policies such as the Animals On Campus Policy. This means when an ESA is outside of the Owner's room it must be under control, leashed, the ESA must relieve itself in an appropriate area, and waste must be cleaned up and disposed of properly by the Owner. ESAs may not be left unattended outside of the Owner's assigned apartment or room.*
- *ESAs must be properly cared for. It will be considered presumptive evidence of a lack of care if the ESA is left unattended to or unsupervised for over 12 hours. An ESA may not be left overnight in college housing to be cared for by any individual other than the Owner. If the Owner is to be absent from his/her residence hall *overnight or longer, the animal must accompany the Owner.**
- *The Owner is responsible for feeding, supplying water and other care. ESAs may not be bathed or groomed inside College housing or using College resources.*
- *ESAs must not be vicious, threatening, loud, disruptive, or otherwise behave inappropriately toward others in housing or on College property. It must not cause damage to the room or other property.*
- *The ESA must be housebroken and accidents must be promptly cleaned up by the owner. Pee pads are not permitted for toileting. ESAs that relieve themselves outside must be taken to proper areas and waste should be cleaned up and properly disposed of in sealed bags in a designated trash receptacle.*
- *ESAs are not a pet and in particular are not a pet for others. Access should be restricted to the owner. It is not appropriate to have an ESA in public areas of College housing, except for transporting the animal in and out of housing to relieve itself or exercise.*
- *The ESAs are allowed only in College housing and does not permit the Owner to bring the animal to other areas on Institutional Property. ESAs differ from Service Animals which are allowed in classrooms, offices, etc.*
