

The Snow College

ALUMNI AVALANCHE

June 2009 • Issue 9/Volume 1 • Alumni Relations • Snow College • 150 College Ave. • Ephraim UT 84627 • 435.283.7062

In this issue:

- 1..... Greetings from the Alumni Office
- 2..... Alumni News/In Memoriam
- 3..... Campus News
- 4..... An Update from President Wyatt
- 5..... Campus Report
- 6..... Upcoming Events
- 7..... Summer Calendar
- 8..... Golden Badgers

Greetings from the Alumni Office

Joni Lindsay, Director of Alumni Relations

Alumni Relations finished the school year with a flurry of activities--S Day, emeriti elections, Golden Badger Reunion, commencement and the preparations for Scandinavian Days. But if we thought we were going to experience a summer lull here on campus, we were mistaken, and happily so. Granted, there are fewer student bodies walking around, but as evidenced by the summer calendar, Snow College keeps moving full steam ahead. Welcoming the Golden Badgers to the Noyes building in April just reminds us all of Snow's vibrant history and exciting present and how great it is to come together and reaffirm our love for this little college in Central Utah.

This summer we'll be working hard to reconnect with Badgers everywhere and to let everyone know about what's in the works. We hope all of you will make plans to be involved in the coming year--whether it is through music, athletics (Homecoming will be on October 24th), arts or recreation here in Sanpete. We're excited for what lies ahead and want you all to continue to be a part of the Spirit of Snow--hope to see you soon!

Former Badgers – send your kids to us!

New legislation creates scholarships for nonresident alumni's children

A brand new opportunity for the children of out-of-state alumni is here. Any out-of-state prospective Snow College student who has a parent who received an Associate's Degree through Snow College will be granted resident tuition during their time at Snow.

To qualify, students should visit:

www.snow.edu/scholarships

and click on the Alumni Legacy Scholarship link. Fill out the application and submit by Aug. 1 for Fall 2009 enrollment.

Calling all SSS Alumni!

We are looking for all students who have participated in Trio's Student Support Services over the past 30 years. It used to be called Student Services, but it has always been for first generation college students and low income students.

Past directors include DeMont Wiser, Boyd Brady, Katie Jean Larsen, Cindy Crabb, Keith Uperesa, Alema Teo, and Mike Anderson (current director). Other personnel have included: Edith Willardsen, Clara Larsen, Carolyn Hansen, Colleen Hermansen, Connie Cox, Betty Dase, AnnaLyn Roberts, Kelley Paystrup, Jeff Kilts, and Tyler Hughes.

Current personnel include: Sandra Lanier, Claudia Olsen, Mel Jacobson, Tammy German, Cindy Averett, and Dan Gerber.

Contact Information:

Sandra Lanier

Office: Greenwood Student Center 250

Office: 435-283-7392 / Fax: 435-283-7398

IN MEMORIAM

KENNETH RALPH POULSON

Our loving father, grandfather, husband, and great grandfather Kenneth Ralph Poulson passed away peacefully with family on Easter morning, April 12, 2009, at the age of 82 in Salt Lake City, Utah, from complications related to Parkinson's disease. Kenny was the ultimate family man and derived his greatest joy from doing things with and for his wife of 56 years, Virginia W. Colton, children, son-in-laws and grandchildren.

Ken was born in Ephraim, Utah to Ralph and Zelma Ottesen Poulson on June 11, 1926. He and his sister, Carol Nielsen were raised in Sanpete County where Ken developed his strong work ethic in the family poultry and farming business. His love of adventure and the outdoors was developed in the mountains and lakes of Sanpete County, where he hunted, boated and helped to pioneer skiing. He later served his country as a medic in the United States Navy. A first-generation college graduate, Ken earned his Associates Degree from Snow College and a B.S. in finance from the University of Utah in 1951.

For three decades Ken directed Beryllium exploration and mining operations as a Vice President of Brush-Wellman Inc. of Cleveland, Ohio. Ken also served as President of the Utah Mining Association and on the Board of Governors for the Salt Lake Chamber of Commerce.

"Captain Kenny" was known for being one of the first persons ever to water ski on one ski on Jackson Lake and later created one of the first personal maps of the shoreline and campsites of Lake Powell.

ZELLA FRANCOM MADSEN

After 97 1/2 years of gracious living, early on the morning of May 13, 2009, with her loving children by her side, Zella peacefully joined her loved ones who have preceded her. Zella was born on November 4, 1911 in Levan, Utah as the first of eight children to Ray and Louise

Francom. She met her sweetheart, Leon Madsen, while attending Snow College. They were married on May 1, 1939 in the Manti LDS Temple. Zella was a dedicated member of the LDS Church, serving in many capacities. She found great joy and fulfillment in service to others. Her homemaking skills were exceptional. Her delicious home cooked meals, hot cinnamon rolls, cozy quilts, hand-dipped chocolates, fresh cut flowers, and so much more, were frequent gifts enjoyed by family and friends. Zella loved the great outdoors. Fishing and camping were her favorite pastimes. Her love of gardening helped keep her young and she always delighted in sharing the fruits of her labors. Her family and the love they shared brought her her greatest joy. Zella inspired us all with her strength of body, mind and spirit. She had a calmness and sweetness that came from her firm and constant faith and a sureness of her purpose here on earth. We will miss her spunky personality and keen sense of humor. She always kept us smiling.

BADGERS GROW GOLDEN — OR MAYBE SILVER

Some Badgers are Golden (we're special ya know)
We met for reunion, our mem'ries in tow

I heard people say, "Is this *our* old Snow?
"My goodness it's changed—tell us please where to go"

Old Noyes looked the same—'til we entered the door
Then cute, smiling guides pointed up to floor four

Tags for our names were essential for sure
None looked quite the same as we did—long before

My hair has some gray, Hey—at least it's still there!
Plus I have my own teeth, but some pounds I can spare

In 50 plus years, we've 'been through the mill'
But our giggles and grins were recognized still

Visits were sweet, and our banquet delicious
Hugs and chuckles aplenty—the occasion auspicious

The music was grand, the dance floor inviting
My endurance was baaad, but my partners—exciting

We searched a long time—you finally got found
From the '59 grads back to...well, those still around

I *loved* the phone visits—so why weren't *you* there?
We all really missed you—but I ate your share 😊

We checked family and friends, looked at Dex, who 'knows best'
Finding many of you—please help find the rest

We'll meet yet again—in just one more year
Help us once more—make Snow magic appear.

--Meryl Anderson Jorgensen, Class of 1958

**Thanks to all of you who attended the Golden Badger Reunion!**

Now we're building the Golden Badger Directory. If you're a Golden Badger and are receiving the Avalanche, you are in it. If you know anyone who is not currently on the mailing list, please let us know! We want to invite **every** Golden Badger to next year's reunion!

New Director of Jazz Studies

The Horne School of Music wishes Scott Wilson well as he leaves us for warmer winters at the University of Florida. We are pleased to announce the appointment of James Burton as Director of Jazz Studies at Snow College. Burton will be on campus July 6-11, as part of the faculty of the Juilliard Jazz Workshop at Snow College.

James Burton III, trombonist, composer, arranger and educator is among a new wave of musicians hitting the jazz scene with an expressive sound, steeped in the tradition. James is a Summa Cum Laude graduate of Jackie McLean's Institute for Jazz Studies, and the Juilliard Jazz Studies Artist Diploma program. During this time he was a student of world-renowned trombonists Wycliffe Gordon, Steve Davis and jazz luminary Jackie McLean. James has also had the opportunity to study with NEA Jazz Master Curtis Fuller via the Skidmore Jazz Institute and the Betty Carter Jazz Ahead residency at the Kennedy Center. James has recently completed a master's degree in jazz studies from the Juilliard School, studying with trombone icon Steve Turre.

James has performed alongside many great jazz artists, including Illinois Jacquet, Gerald Wilson, James Moody, Frank Wess, Jimmy Heath, Slide Hampton, Herbie Hancock, Jon Faddis, and Eric Alexander. James has also performed with the Ray Charles Orchestra, the Duke Ellington Orchestra, the Count Basie Orchestra, the Lionel Hampton Orchestra, the Dizzy Gillespie All Star Big Band, the Carnegie Hall Jazz Orchestra, the Lincoln Center Jazz Orchestra, and the Roy Hargrove Big Band. In addition to his musical credits, James has appeared in the major motion picture *Bolden*, as well as a national television ad campaign for Grey Goose. James has played many venues and festivals around the world, some of these include Tanglewood, the Litchfield Jazz festival, the Berghausen jazz festival (Germany), the Spoleto festival (Italy), the Tim Festival (Rio de Janeiro), the JVC jazz festival (NYC), the Lionel Hampton Festival, the Kennedy Center, Alice Tully Hall, Avery Fisher Hall, Aaron Davis Hall, the Blue Note, Birdland, Iridium, Jazz Standard, Smoke, Dizzy's Club, Rose Theater, Smalls, Scullers, Regatta Bar, B.B. King's Club and the Sporting Club of Monte Carlo, Monaco.

James has also participated in many educational outreach programs including two NEA Jazz in the Schools tours in conjunction with Jazz at Lincoln Center, as well as residencies at Georgia Academy for the Blind and the University of Costa Rica. James has also taught at Jackie McLean's Artist Collective and served in an adjunct capacity at the Hartt School of Music's jazz program since 2002. James is currently a Morse Fellow, and a Gluck Fellow at the Juilliard School, providing musical instruction for 2nd grade students in Harlem, as well as providing jazz performances for nursing homes and pediatric care facilities in NYC.

Dean of Fine Arts, Vance Larsen adds, "Burton first attended college on a football scholarship and reports he can still bench press over 300 lbs. and is also rumored to be the 'best basketball player of any active jazz musician in Manhattan.'"

Valedictorian and Other Honorees Named

Four students have been named as honors recipients for Snow College graduation: Celeste Wouden (Mantua) as Valedictorian, Paige McGuire (Provo) as Salutatorian, along with Laura Christopherson (Clinton) and Jacob Porter (Centerville) as Outstanding Citizenship Recipients.

Go to <http://www.snow.edu/publicr/09/042509.shtml> for details.

Snow College Nursing Program

The past few months have been very exciting for the Snow College Nursing Program. Clinical rotations are finished and we are grateful to all the hospitals, clinics, and the Richfield care center for hosting the students for this experience. All of the students performed exceptionally well and are now back in classes finishing up the year.

The students attended the Utah Student Nurses Association (USNA) conference in Price. There they attended workshops, talked to representatives from other schools and hospitals, and voted for next year's USNA officers. Our Jennifer Cafferty was elected Vice President of USNA. She went to the national conference in Tennessee and represented Snow College and Utah. We look forward to wonderful things next year as she continues her service to the nursing students in Utah.

The State Health Occupations Students of America state convention was also held recently. Snow College students again were honored as top finishers in most events in which they competed. Students compete against other students in categories such as Medical Math, Clinical Skills, Creative Problem Solving, and Medical Photography to name a few. Two practical nursing students and four nursing assisting students are going to the national convention located in Nashville Tennessee in June.

The coop RN program expanded to meet an increased demand for next year from 20 to 30 students! Faculty had to be flexible and take on the extra requirements to accommodate the larger class size. Julie Taylor is one that is taking this increased workload. She holds a Master's Degree in Nursing Education and recently passed the exam to be a Certified Nurse Educator. She is a valuable member of the nursing faculty and works very hard to ensure the students have a quality education.

Snow College Business Division Accredited

The Snow College Business Division has received full accreditation with no notes or conditions from ACBSP (Association of College Business School and Programs). This makes Snow College one of a select few two year business programs in the nation to be accredited. This is just one more evidence that Snow College is "the best two year institution in the nation".

Greetings from Snow College! Our future looks bright, in spite of the economic challenges we – and the world – face. Like all colleges and universities in Utah, our budgets are being cut, but, unlike several of our sister institutions, we are seeing a huge increase in the number of students coming to Snow this fall. The budget process has captured much of our attention; however, we have maintained a positive focus and will be ready this August for the start of our largest freshman class in history.

We know that those new freshmen joining us in the fall will have a life-changing experience while on campus. Teaching students – both inside and outside the classroom – is what Snow’s committed faculty and staff do best, and I hope you’ll enjoy reading a few of the many student success stories outlined below:

Science Success: Snow has a rich history of preparing pre-med, pre-pharmacy, and pre-engineering students. Four-year universities continue to seek our alums, and there is good reason. Over the past decade nearly 60 percent of our students taking the Pharmacy College Admissions Test have scored in the 95 percentile or higher. Eighty-three (yes, 83!) percent of them have been accepted into pharmacy schools.

Engineering faculty tout of their students’ transfer success, evidenced by their high GPAs at graduation. Since 2000, 41 percent finished up their bachelor degrees with a “cum laude” honor distinction, and each student finishing a graduate program completed with an average GPA of 3.59. Pretty impressive!

A personal, local example of this success is Jason Wheeler. After graduating from Snow, he went on to earn a master’s degree at MIT on a full Presidential Scholarship, where he graduated first in his class at MIT. This spring he completed a PhD in Biomechanical Engineering at Stanford.

Speaking of former students, last fall we hosted a well-attended reunion for all science alumni, and we launched a campaign to raise \$1 million for science student scholarships. Recently retired professors Boyd Beck, Paul Fore, and Bart Nelson enjoyed visiting with their former students. Afton Hansen also attended, and Jim Luster, Layle Erickson, and Blaine Moore were honored. It was a great day of reminiscing, and we invite you to contribute to the scholarship fund in honor of your favorite science professor.

Fine Arts Success: The success of our Fine Arts Division can be credited to faculty members who love what they do and spend countless hours outside of “normal office hours” teaching, mentoring, and recruiting students. They are preparing students like Steven Hunter who, after graduating from Snow, transferred to the Manhattan School of Music in New York for a Masters of Trombone Performance. This spring Steven completed a D.M.A. at the University of North Texas.

Steven – and many others – succeed because of the performance opportunities our Fine Arts students have. For example, this is the fourth year the Juilliard School and

Snow College will be teaming up for music instruction in Ephraim for high school and college students. Faculty from both schools teach workshops and offer performances to packed audiences. Juilliard’s Drama faculty and students will also return to Ephraim for a second year of “Art REACH,” a two-week Juilliard Drama Intensive experience for middle to high school-age students interested in exploring the realm of the actor.

These Fine Arts opportunities aren’t limited to the Eccles Center. The Visual Art Department, housed in the Humanities Building, is also experiencing a period of unprecedented growth and success. The number of students seeking visual art degrees has quadrupled in the past five years. The studios available to our students have expanded significantly and are state of the art. We have recently added a sculpture studio, photo lab, digital media center, and a student gallery. Our main gallery was renovated last spring, and hosts six major shows annually. In addition to the facilities, our students have access to a highly qualified faculty of practicing artists and are able to travel and have contact with the larger art dialogue.

Career and Technology Success: Student interest in our career and technology programs continue to grow. With new housing in Richfield we expect that campus to become a major destination for students across the state who are interested in the wide range of programs available there. Nursing is one significant area of focus, and alum Taylor Garcia reports that she has received the best training possible at Snow. She graduated this spring and is off to a service learning experience in Africa for the summer. She will continue her nursing studies this fall.

Also new this year is the impressive distinction given to our Business program by the Association of Collegiate Business Schools and Programs (ACBSP). The Business Management, Business Technology, and Business Administration programs received full-accreditation status by the prestigious accrediting body. As Division Dean Doug Dyreng says, “This accreditation makes Snow College one of a select few two-year business programs in the nation to be accredited.” This accomplishment is indeed evidence of Snow’s commitment to quality.

General Education Success: Since most of our students have an undeclared major when they arrive on campus, it is critical that we continue to offer a solid general education program. Here again, our faculty rank among the best. Our Social Science classes are some of the most popular on both campuses and – like most general ed classes – allow students to explore options and eventually select their major of study. One subject all students need to master, regardless of their major, is English, and our faculty top the charts. In a State-wide study conducted by the Commissioner’s Office, it became clear that Snow does more than any other school in the State to help students learn. The report states, “Especially notable...are the results for Snow College, whose incoming freshmen averaged the lowest of any of the schools, but whose outgoing {English} 2010 students averaged the highest.”

Athletic Success: For the second consecutive season the Snow College football team played for the National Championship. This season we came up short 37-30 to Butler Community College in double overtime. We were down 23-9 in the fourth quarter before staging a furious comeback and ultimately lost on a blocked field goal that Butler recovered in the end zone for a touchdown. Needless to say it was very exciting. With many of last year’s players returning this fall we expect to make another run at the National Championship.

We had two former Snow football players playing opposite each other in the Super Bowl. Deuce Lutui (offensive lineman for the Arizona Cardinals) and Brett Keisel (defensive lineman for the Pittsburgh Steelers). They both love Snow College and have committed to help us further upgrade our programs.

The Men and Women’s basketball teams improved dramatically over last season. The men finished 18-13 including a win over eventual National Champion Salt Lake Community College 67-66 on a last-second 75-foot shot to beat the buzzer. The women finished 17-14 and third in the conference.

Continued Focus on Student Success: We have made major changes in Student Services.

Our academic advisors have all been cross-trained and empowered to assist students in all areas of registration, advising, scholarships, financial aid, housing and more.

These “full service” advisors are working very hard and will become a model of student service.

On a related note, soon our well-advised students will have a new place to study. We broke ground in February on the Snow College Heritage Plaza and Karen H. Huntsman Library. We expect to have the plaza ready for meetings, lunches, concerts and other activities this fall, and the library will open its doors prior to the 2010-11 academic year. I can’t tell you how exciting it is to look out the window and see the construction moving forward; this will undoubtedly be one of the finest buildings in the state. It is also exciting to tell our vision of the Heritage Plaza. As you may know, we’ll have raked, granite walls where names (of those who donate one year’s worth of tuition) will be etched. Snow has a history of sacrifice and service, and we want to capture that spirit in a central place on campus. Students will be able to see the names of those people – people like you! – who have made their education possible.

Education is an investment in our future, and you have stepped up to help. In fact, your collective donations accounted for over \$421,411 compared to \$176,000 last year in privately funded scholarships. We encourage you to continue your support of our scholarship fund-raising efforts. We remain the best educational value in Utah, but there is still a great need. The average un-met financial need for each student after financial aid was awarded was \$6,794! Scholarship dollars really are the most important - and impactful - funds we raise at Snow College.

It’s most impactful because it makes school a reality for those who otherwise couldn’t be here. The photo you see in this report is one of many from my trip to New York and Washington D.C. with students from my American Government class. We had a delightful time seeing historical sites and discussing what we’d studied in class. During our week-long adventure, I reflected several times on the significance of being at our Nation’s Capitol with our future leaders. Serving

our students is an extraordinary opportunity I’m grateful to have. They are the purpose of all we do, and I sincerely thank you for your support of them.

The Juilliard Drama Intensive

June 8-12, 2009

<http://www.snow.edu/artreach/>

435-283-7478

The Snow College Department of Theatre Arts is pleased to offer your students an exceptional opportunity for summer study with advanced students from The Juilliard School on the campus of Snow College,

The Juilliard Drama Intensive will be an occasion for middle to high school-age students interested in exploring the realm of the actor to study under the guidance of current Juilliard Drama Students. The drama intensive will offer classes in scene study, voice and speech, movement, improvisation and creativity in rigorous group sessions. The goal of the intensive is to empower student artists through the exploration of theatrical tools that will enrich future endeavors in the artistic field and beyond.

Historic Landscaping.....June 17-19
Windsor Chair Making.....June 22-26
Old World Skills in Wales.....July 29-Aug 5
NEW! Gravestone Restoration....August 20-22

Alumni are invited to participate! www.snow.edu/tbsi

It's SNOWing at Raging Waters!

During the hot summer, a day to cool off in the Snow probably sounds pretty good. Well, on Saturday June 27 it's SNOWing at Raging Waters! The Salt Lake water park has teamed up with Snow College to offer a great rate for all day passes for students, alumni and friends of Snow.

Just go to the Snow College booth out front of the waterpark instead of the ticket window to get an all-day passport for \$12, almost half price! Snow also will be giving out free food and prizes.

Call 1-800-848-3300 or visit www.snow.edu for more information
Visit Raging Waters online at www.ragingwatersutah.com

SNOW COLLEGE HORNE SCHOOL OF MUSIC

FCCLES CENTER FOR THE PERFORMING ARTS

2009 SUMMER CONCERT SERIES

June 24 - The Five Browns

Utah's premier piano quintet. All Juilliard graduates.

June 26 - Carol Wincenc

Juilliard concert flutist and professor.

June 27 / July 2- Manhattan to the Mountains

Chamber Music Festival Faculty Concerts

Performers are faculty from Manhattan School of Music from NY; Milan, Italy Conservatory of Music; Juilliard School of Music; New York Philharmonic Orchestra Members; Universities of Utah and Arkansas.
